ENG 2

POWER SUPPLY

1. Check that the unit is switched off.
 2. Insert the small end of the USB C cable (included) into the USB C charging port (13).
 3. Connect the other end of the USB cable into the USB port of your powered computer or USB type power adapter and connect it to a wall socket. The LED near the USB C charging port lights up in red when the device is charging.
 4. Once charging is completed, the LED light will turn off.
- Note: Please note that the USB cable can only be used for battery charging and not for data transfer.

POWER ON AND POWER OFF

Press the power button for 3 seconds to turn the microphone ON /OFF.

PAIRING MICROPHONE WITH SMARTPHONE

Power ON the microphone and enable Bluetooth mode on your smartphone, search for the pairing name "KMS-20" and select it on your smartphone. Once the microphone is successfully paired with your smartphone, a notification sound will be heard.

ACCOMPANIMENT MODE

When you use the microphone to sing a song, short press the MIC button to enter the accompaniment mode, then the original voice will be partly removed / hidden. Short press the MIC button again to turn this function off.

CHANGE YOUR VOICE

Long press the MIC button to change the sound of your voice through the microphone. You will hear a notification sound and your voice will be changed. You can change between 4 different styles.

ENG 3

Each time you long press the MIC button, the sound of your voice will change. The fifth time you long press the MIC button, the microphone will change back to normal mode / your own voice.

REMIX FUNCTION

Push this button to Adjust Echo high/low on the microphone.

AUDIO OUTPUT (HEADPHONE CONNECTION)

The 3.5mm audio output is for connecting a wired headphone / earphone. Then you can hear the song you sing via headphone / earphone.

MODES

The speaker offers various modes: Bluetooth / USB and Micro SD / card (up to 32GB).

SPECS

Bluetooth Karaoke Mic
5W RMS output
Bluetooth 5.4
USB / Micro SD card / AUX output
Operating range up to 10 meters
Built-in battery with 5-6 hours playtime (1200mAh)

Electric and electronic equipment and included batteries contain materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries are marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste, but should be disposed of separately.

As the end user, it is important that you submit your used batteries to the appropriate and designated facility. In this manner, you make sure that the batteries are recycled in accordance with legislation and will not harm the environment.

ENG 5

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, Denver A/S declares that the radio equipment type KMS-20 is in compliance with Directive 2014/53/EU. The full text of the RED declaration of conformity is available at the following internet address: denver.eu and then click the search ICON on the top line of the website. Write model number: KMS-20. Now enter product page, and RED directive is found under downloads/other downloads.

Information on standby/off mode power consumption and power management for products compliant with Commission Regulation (EU) 2023/826 can be found at the following internet address: denver.eu and then click the search ICON on the top line of the website. Write model number: KMS-20 and enter the page.
