Electric and electronic equipment and included batteries contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries is marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste, but should be disposed of separately.

As the end user it is important that you submit your used batteries to the appropriate and designated facility. In this manner you make sure that the batteries are recycled in accordance with legislature and will not harm the environment.

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, DENVER A/S declares that the radio equipment type TSP-301 is in compliance with Directive 2014/53 /EU. The full text of the EU declaration of conformity is available at the following internet address: denver.euand then click the search ICON on topline of website. Write model number: TSP-301. Now enter product

page, and RED directive is found under downloads/
other downloads.

Operating Frequency Range: 55 Hz-20 kHz

Max Output Power: 12W

Bluetooth Frequency: 2402 MHZ-2480 MHZ
