CAREFULLY AND RETAIN FOR FUTURE USE**

DESCRIPTION OF PARTS

- ① On/Off Button
- ② Magnetic wireless charging area
- ③ LED indicator lights for battery power
- ④ LED indicator light for wireless charger
- ⑤ USB output
- ⑥ Type C input and output
- ⑦ Stand

PBW-5000 Magnetic Wireless Charging Powerbank

PACKAGE CONTENTS:

- Power bank *1
- Charging Cable *1
- Instruction Manual *1

TECHNICAL SPECIFICATIONS

- Built-in rechargeable battery: 5000mAh
- Type-C input: 5V 2.4A
- Type-C output: 5V 2A
- USB output: 5V 2A
- Wireless charger output: 5W
- Compatible with iPhone 12/13/14/15 series for magnetic wireless charging
- With battery indicator
- With foldable stand

INSTRUCTIONS FOR USE

Charging Your Powerbank

1. Before using it for the first time please fully charge the battery!
2. Please use the Type C cable provided to charge your powerbank, connect the Type-C end to the powerbank, and connect the other end to your computer USB port or any other adaptor.
3. While it is Charging, the battery indicator will flash. The four indicators on the left are power indicators, which show the battery remaining capacity from left to right: 100%-75%-50%-25%.
4. When charging is completed, four LED indicator lights will stay on white, please remove the charge cable after fully charged.

Charging Your Phone or Other Devices

1. Ensure that your Powerbank is fully charged.
2. Use the Type C output port or USB output port on the powerbank to charge your phone or any other device. While charging your phone or other devices, the LED indicators for battery remaining capacity will flash.

Wireless Charging Your iPhone

- 1.Ensure that your Powerbank is fully charged.
- 2.Place your mobile phone in the centre of the wireless charging surface, and press the switch button to turn on the wireless charging function. Then the powerbank will charge your iPhone now.
- 3.Check your mobile phone is successfully charging.
- 4.While the powerbank is charging your iPhone, the LED indicator will stay green.
- 5.If the wireless charging indicator light flashes then there is an issue with charging. Try re-positioning your phone or remove your phone case.

Note:

- 1.Ensure the protective case does not create distance between the charging pad and the back of the phone that is greater than 4mm.
- 2.Do not charge your phone in a metal case or any magnetically sensitive devices, such as metallic studs, magnetic clasps, or a magnetic plate, in this case please remove the case before placing your phone.

Please notice - All products are subject to change without any notice. We take reservations for errors and omissions in the manual.

Electric and electronic equipment and included batteries contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries is marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste, but should be disposed of separately.

As the end user it is important that you submit your used batteries to the appropriate and designated facility. In this manner you make sure that the batteries are recycled in accordance with legislature and will not harm the environment.

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.
