UPDATE

Please find update if you experience problems sending pictures via MMS.

Download and unzip the update file

Copy "FW900.bin" to an empty MicroSD card and insert this into the camera

Power on the camera in TEST mode and wait.. (there is a red LED diode on front that blinks, but pay attention to the screen inside. When this turns on again, the camera is updated.

Turn off the camera, take out the MicroSD card and make sure to delete the update file before using it again.

Please notice: MMS setup etc. has to be made again as the camera will be reset completely.

Update can be found here:
